Unauthorized changes or modifications to this device may void the user's authority to operate the equipment.

Export Controls

This device may contain commodities,

technology or software subject to export laws and regulations from the US and other countries. Diversion contrary to law is prohibited.

## Introduction

---

The Nokia Bluetooth Headset BH-203 allows you to make and receive calls while on the move. You can use the headset with compatible phones that support Bluetooth wireless technology.

Read this user guide carefully before using the headset. Also read the user guide for your phone, which provides important safety and maintenance information. Keep the headset out of reach of small children.

### Bluetooth wireless technology

Bluetooth wireless technology allows you to connect compatible devices

without cables. A Bluetooth connection does not require that the phone and the headset be in line of sight, but both devices should be within 10 meters (30 feet) of each other. Connections may be subject to interference from obstructions, such as walls, or other electronic devices.

The headset complies with the Bluetooth Specification 2.0 that supports the Headset Profile 1.1 and Handsfree Profile 1.5. Check with the manufacturers of other devices to determine their compatibility with this device.

There may be restrictions on using Bluetooth technology in some

locations. Check with your local authorities or service provider.

## Get started

The headset contains the following parts shown on the title page: charger connector (1), multifunction key (2), indicator light (3), volume keys (4), earloop (5), and microphone (6).

Before using the headset, you must charge the battery and pair the headset with a compatible phone.

**Note:** Parts of the headset are magnetic. Metallic materials may be attracted to the

headset. Do not place credit cards or other magnetic storage media near the headset, because information stored on them may be erased.

## Chargers

Check the model number of any charger before using it with this device. The

headset is intended for use with the AC-1, ACP-8, ACP-12, and LCH-12 chargers.

**Warning:** Use only chargers approved by Nokia for use with this particular

enhancement. The use of any other types may invalidate any approval or warranty and may be dangerous.

For availability of approved enhancements, please check with your dealer. When you disconnect the power cord of any enhancement, grasp and pull the plug, not the cord.

## Charge the battery

The headset has an internal, nonremovable, rechargeable battery. Do not attempt to remove the battery
